“

What a huge success UK Connect was! So glad I was able to participate  
*Michele Hanson, CISO, Gatwick Airport*

“

"Thank you for hosting the best vendor/client event I have attended. I developed useful contacts through the workshops and stand visits.  
*Andrew Gudgeon, Head of Operational Risk Oversight: Cyberspace, Resilience and Transformation, Nationwide*

“

I think it went really well and I certainly got a lot from it. I don't attend many events because they are often vendor driven and you spend most of the event fending off unwanted advances, but this was exactly the right type of environment to have those grown-up conversations  
*Steve Byrne, Information Security Officer, DWF LLP*

“

Networking has been really good (...) people were willing to have a discussion and introduce the technology (...)  
*Jim Griffiths, Head of Information Security, KIER GROUP*
